

Author Guidelines:

The **World Journal of Pharmacy and Pharmaceutical Research (WJPPR)** is an **Online, Monthly Published, Peer-Reviewed Research Journal** that focuses on innovative and high-quality research across various fields of **Pharmaceutical Research & Innovation**. We welcome submissions that cover a broad range of topics related to Pharmacy and Pharmaceutical Research, including but not limited to:

- **Artificial Intelligence in Drug Discovery**
- **Biopharmaceutics**
- **Biologics and Biosimilars**
- **CRISPR and Gene Editing**
- **Drug Resistance**
- **Green Chemistry**
- **Industrial Pharmacy**
- **Medicinal Chemistry**
- **Nanotechnology**
- **Natural Products**
- **Organic Chemistry**
- **Pharmaceutics**
- **Personalized Medicine**
- **Phytopharmaceuticals**
- **Pharmaceutical Technology**
- **Pharmacokinetics**
- **Pharmaceutical Chemistry**
- **Pharmacogenomics**
- **Pharmaceutical Analysis and Quality Assurance**
- **Pharmacology and Toxicology**
- **Pharmacy Practice** (including Hospital, Community, and Clinical Pharmacy)
- **Pharmacognosy and Phytochemistry**
- **Pharmaceutical Microbiology and Biotechnology**
- **Pharmaceutical Marketing Research**
- **Regulatory Affairs**
- **Sustainable Pharmacy Practices**

Types of Manuscripts

We accept a variety of manuscript types, including:

- **Research Article:** Original, detailed studies presenting new and significant findings.
- **Review Articles:** Comprehensive reviews of relevant literature in the field.
- **Short Communications:** Brief reports that communicate significant, innovative findings quickly.
- **Case Studies:** Detailed reports on clinical or practical cases in the pharmaceutical field.

Submission Guidelines

- **Originality:** Manuscripts submitted to **WJPPR** must be original and should not have been published or be under consideration for publication elsewhere.
- **Peer Review:** All submissions will undergo a **rapid peer-review process**. Articles that meet our high standards of quality, originality, and relevance will be accepted for publication.
- **Format:** Manuscripts should follow the **WJPPR** formatting guidelines, which include clear sections for the abstract, introduction, methods, results, discussion, and references.

Publication Ethics

WJPPR adheres to strict ethical guidelines for publication. All manuscripts must comply with the ethical standards for research and publication. Any issues related to plagiarism, data falsification, or unethical research will result in the rejection of the manuscript.

ARTICLE FORMAT (Research / Review Article, Case Study)

Language: The manuscript must be written in clear, **English**. It is allowed to use either British or American spelling. It must be sent in Microsoft Word 2003 Format (.doc or .docx).

Page Setup/ Font: In **Microsoft Word**, Select the **Entire Manuscript**, then go to the "**Page Setup**" settings and set the Margins (Top, Bottom, Right, and Left) to 1 inch for all sides. The paper size should be **A4**. The manuscript must be typed in **Times New Roman** Font with a Font Size of **12** for the Entire Article.

Paragraph: In Home Section **Paragraph Setting (Indentation and Spacing)** Is Should Be **0 Left, Right, Before and After**.

This All 9 Points In **UPPERCASE and Bold** Also.

1. Title Page
2. Abstract
3. Keywords
4. Introduction
5. Materials and Methods
6. Result and Discussion
7. Conclusion
8. Acknowledgements
9. Reference

1. TITLE PAGE

The title page must include:

- **Title of the manuscript:** Should be concise, specific, and informative.
- **Author names and affiliations:** Include the full names of all authors and their institutional affiliations.
- **Corresponding author details:** Provide the name, email address, and contact information for the corresponding author.

2. ABSTRACT

The abstract should summarize the research, including key objectives, methodology, major findings, and conclusions. It should be clear, concise, and informative, with a maximum of 250 words.

3. KEYWORDS

Provide 3-6 relevant keywords that reflect the content of the manuscript. These keywords will be used for indexing and search purposes, so choose terms that are common within the field of pharmaceutical sciences.

4. INTRODUCTION

The introduction should give a brief overview of the background and context of the study. Clearly state the research problem, hypothesis, or objective of the study. Include relevant references to previous research that highlights the importance of your work.

5. MATERIALS AND METHODS

In this section, describe the materials, methods, and procedures used in the study in enough detail to allow others to replicate the research. This includes experimental design, data collection techniques, and statistical analysis (if applicable).

6. RESULTS AND DISCUSSION

- **Results:** Present the findings of your study clearly, using appropriate tables, figures, or graphs. Make sure the data is organized logically.
- **Discussion:** Interpret the results, explaining their significance in relation to the research question. Compare your findings with previous studies and discuss any potential limitations.

7. CONCLUSION

Summarize the main findings of your study and their implications for the field of pharmaceutical research. Avoid repetition of the results and emphasize the contribution your research makes to existing knowledge.

8. ACKNOWLEDGEMENTS

This section is optional. Acknowledge any individuals, organizations, or funding sources that contributed to the study but were not included as authors.

9. REFERENCES

All sources cited in the manuscript should be listed in the reference section, following the formatting style used by **WJPPR**. Ensure that the references are up-to-date and relevant to your study.

"If you have any questions regarding the author guidelines, please feel free to contact us at wjpprjournal@gmail.com.

Please note that we do not share complete information in the public domain, but I will provide you with the necessary details."
